Why should you participate?

- Understand your SAP Estate for **future planning**
- Gain a **clear view of efficiencies and improvement** areas within your ERP SAP Organisation
- Examine your **ERP and SAP Spending profiles** at Enterprise and major Line of Business levels
- Obtain a **valuable positioning exercise** to see yourself pitched against global Integrated companies
- **Align** your company's **Technical Landscape and spend** with **company goals**
- Potential to **optimise** your current **technologies and capabilities**

Packages are available to match your company's Benchmarking needs.

“The ERP SAP benchmark is well worth the time and effort. The detailed process that Aupec provides in comparing our data with a large peer group is impressive and highly valuable. At the end, you have a clear roadmap of what is working well and what needs focus and attention for improvement. This will be the foundation to drive better results, and help us close the gaps to achieve excellence in the ERP SAP area.”

“This is the best benchmark I have ever seen.”

“This has given us a view of our environment in a way we have never had before. We can see our data, environment and how we compare in one holistic view.”
